DE LOME EXPLAINS IT

Interview With the Spanish Minister on Autonomy Decrees.

CANADIAN LAWS COMPARED.

Every Man In Cuba, White or Black, Has a Right to Vote For Legislators Without Conditions Which Attach In the Dominion—The Tariff Clause—Other Washington News.

WASHINGTON, Nov. 30.—Senator Dupuy de Lome, the Spanish minister has received long dispatches from Madrid showing in detail the plan of autonomy which Spain is about to apply to Cuba. Speaking of the new laws, the minister said last evening in part:

"I regret that much misapprehension has arisen over the new law owing to the very meager reports heretofore received concerning it. It is a measure which will stand the closest scrutiny, and I am very desirous that the American people should look into it with care, studying it and comparing it with other constitutional methods of governing colonies. Such study, I am sure, will fully vindicate the law and commend it to the people of this country."

"As a matter of fact the new plan is a complete realization of the policy and platforms of the autonomist party during the last 20 years. The old plan of autonomy gave to Cuba an advisory body. It did not have final authority in making laws, but merely advised as to those laws. Now, however, the new law proposes to give Cuba a parliamentary body of full lawmaking power. This legislative power is as great as that enjoyed by Canada. This is readily demonstrated by comparing the plan of the law with that of the British North American act of 1867 which establishes the present parliamentary system of Canada. According to the Canadian law, parliament consists of two bodies. The upper house is appointed by the crown, each member holding a life tenure, with a qualification that no member is eligible unless he has an income of \$4,000.

"Instead of the crown appointing all of the upper house of Cuba, as in Canada, the Spanish crown is to appoint only one-half the members. The other half are to be elected by the people of Cuba every five years. There is a \$4,000 property qualification for membership of the upper house. There is a \$2,500 property qualification for members of the lower house in Canada and also a qualification as to those who may vote for such members. But in the new plan for Cuba there is no property qualification as to the electors. It is one man, one vote, the same be he black or white.

"The insular parliament will form its own tariff, fixing both import and export duties. The home government, together with the insular government, will make a schedule of such peninsular and insular products as by common agreement shall enjoy a preferential duty over similar foreign products, which in no case shall exceed 35 per cent. In case of disagreement in the preparation of said schedule the point in dispute shall be submitted to a committee of members of the cortes, consisting of an equal number of peninsulars and Cubans.

"It will be observed that this gives to the Cuban parliament entire control of the tariff, with the condition that there shall be preferential duties for Spain, not exceeding 35 per cent."

Frankfort Lottery Case.

WASHINGTON, Nov. 30.—Justice Harlan handed down the opinion of the United States supreme court yesterday in the case of J. J. Douglas, plaintiff in error against the commonwealth of Kentucky, holding the franchise of the Frankfort lottery to be invalid. The case was brought to this court by Douglas on allegations of error in the decision of the Kentucky court of appeals, which was adverse to him.

November Revenues.

WASHINGTON, Nov. 30.—The government receipts for November so far have reached \$22,950,990, which indicates a total of about \$25,000,000 for the month. This is a trifling improvement over October, when the receipts were \$24,391,415.

AGAINST TIME.

Union Pacific Mail Train Makes 519 Miles In 559 Minutes.

OMAHA, Nov. 30.—The Union Pacific has made another record for fast running. A mail train has been shot across the country from Cheyenne to Council Bluffs, 519 miles, in 559 minutes. This is actual elapsed time and includes all stops. Engines were changed twice and one engine was reloaded. All the regular stops were made and one extra when an air brake hose burst and had to be repaired at the expense of several minutes of time. A burned out bridge near Medicine Row, Wyo. delayed the mail five hours and 30 minutes. The train reached Cheyenne five hours late. It was necessary to reach Council Bluffs on time or pay a heavy fine to the government. It was a most remarkable run against time.

Treasurer McLaren's Defect.

CLEVELAND, Nov. 30.—Attorney Haden, representing the order of the Scottish claus, has recovered to date \$8,000 of the \$15,000, which the books of Treasurer McLaren fail to account for. Mr. McLaren is not mentally clear as yet and is in a private sanitarium. The \$8,000 was found in a bank in Mr. McLaren's name, and his friends believe the remainder is similarly placed.

Boston Republicans.

BOSTON, Nov. 30.—The Republican convention has unanimously named Edwin M. Curtis for mayor.

WHITNEY IN KENTUCKY.

Ex-Secretary of the Navy Pays the Blue Grass Region a Visit.

LEXINGTON, Ky., Nov. 30.—Ex-Secretary of the Navy William C. Whitney and wife, accompanied by Sir Edwin and Lady Coleburt and other friends are spending several days in the blue

WILLIAM C. WHITNEY.
grass region. Mr. Whitney owns a number of blooded horses quartered on Dr. E. M. Norwood's farm.

Mr. Whitney, when asked for an interview on matters political, said: "I have positively nothing to say concerning the political affairs of this nation. I have retired from active politics, and have since my return from Europe made it a rule to abstain from the discussion of politics. I am in Kentucky for a pleasure trip."

RECEIVED BY THE POPE.

Archbishop Keane Congratulated by Leo For Self Abnegation.

ROME, Nov. 30.—Archbishop Keane, former rector of the Catholic University at Washington, was received by the pope yesterday. His holiness congratulated the bishop upon the abnegation with which, in a letter to the pope, he renounced his claim to be included in the list of candidates for appointment to the archbishopric of New Orleans. The pope also congratulated Archbishop Keane upon the series of sermons in English which he has commenced at the church of St. Silvestro in Capite, erected in honor of John the Baptist, a piece of whose head is still preserved there. The church is now in the possession of the English Roman Catholics.

THORN TRIAL.

Case In the Hands of the Jury—Opinion as to the Result.

NEW YORK, Nov. 30.—The trial of Martin Thorn for the murder of Golden-suppe was closed last night so far as the taking of evidence was concerned. This morning the lawyers for the defendant and the people began their arguments and Justice Maddox charged the jury late this afternoon. Opinions both lay and legal differ very materially as to the probable result. Many look for conviction, but a greater number anticipate a disagreement. Thorn charged Mrs. Nack with the murder.

OCEAN RECORD BROKEN.

Kaiser Wilhelm Der Grosse's Trip From New York to Southampton.

SOUTHAMPTON, Nov. 30.—The North German Lloyd steamer Kaiser Wilhelm Der Grosse, which left New York on Nov. 28, arrived here yesterday afternoon. The steamer was delayed 25 minutes in standing by a burning ship, but in spite of this she broke the record for the highest average speed across the ocean, her speed per hour averaging 23.35 knots. The total distance covered was 3,065 knots, and the passage lasted 137 hours 8 minutes, or 5 days, 17 hours 5 minutes.

TOO OLD TO WORK.

Richard Reddick Who Claims to Be 120 Years Old Asks Charity.

PITTSBURGH, Nov. 30.—Richard Reddick, colored, who claims to have been born July 5, 1777, near Richmond, Va., applied at the Department of Charities for admission to the home, stating that he is now too old to work and cannot support himself. He was accompanied by his wife who is 78 years old, and his daughter, who is also up in years. The centenarian was assured that he would be taken care of by the authorities.

ON ENGLISH COAST

Terrible Storm Which Caused Great Loss of Life.

MANY VESSELS GO TO PIECES.

Seven Thousand Troops Ordered Out to Save Government Property—Famous Watering Places Almost Wholly Destroyed—Houses Unroofed in Liverpool. Nelson's Old Flagship.

LONDON, Nov. 30.—The latest reports from various points along the coast show that the gale which swept English waters Sunday and which did not abate its fury until last evening was one of the worst storms of recent years.

In many places it was almost cyclonic in its violence, and the long list of disasters includes a large loss of life, many wrecks of large vessels and the loss of scores, if not hundreds, of smaller craft, with serious damage to property ashore at many important towns. In the north the wind was accompanied by blinding snow and hail that hid the lights and immensely increased the difficulties of navigation. Many ships are known to have foundered, in most cases, it is feared, with all on board.

Scarcely a town on the coast has escaped without more or less injury, falling walls and flying debris adding to the loss of life.

There have been rocket and lifeboat rescues without number. Stories of thrilling escapes come from all points. On the Norfolk coast, between Bacton and Happisburgh five vessels as yet unidentified, went down and the crews of all perished.

Dead Bodies Washed Ashore.

A number of bodies have been washed ashore near Yarmouth. The brig Rugby was wrecked off Hemsby. The coast guard service made desperate efforts to save the crew and succeeded in getting a line on board. A dying woman was "rocketed" in safety and then the brig capsized, all the rest of the ship's company perishing.

A large steam collier dashed upon Flamborough head, floated off and then foundered with all on board.

A steamer not yet identified was wrecked on Brillington sands with her entire company.

The ship Rose of Devon, Captain Davis, went on the rocks near Redruth, Cornwall and her crew of 12 perished. Yesterday the bodies of the captain and five seamen, all wearing life belts, were washed ashore.

The Sheerness dockyard and Woolrich arsenal were inundated. At Scarborough, the fashionable water place, the sea wall washed away. At Yarmouth, Lowestoft and other coast towns of Norfolk the esplanades were flooded.

At Liverpool the squalls blew off the roofs of several houses, threw down chimneys and tore up trees. The Mersey flooded its banks on the Chester side and deluged the shore district for miles.

Similar disasters occurred at Holyhead, where a number of valuable yachts were sunk at their moorings. Scarcely a vestige remains in sight of the wreck of Lord Nelson's old flagship, the Foundryant.

Scene of Great Granular.

The scenes at such popular resorts as Yarmouth and Margate were of great grandeur, but the damage was enormous. Immense damage has been done to the government property at the Sheerness dockyard and the Woolrich arsenal. Seven thousand troops were hurriedly ordered out to remove thousands of pounds worth of ammunition and stores from the wharves and sheds to places of safety.

The tide continued to rise and invaded almost all the workshops, quenched the engine fires and stopped the electric lights. The workmen were obliged to go home, wading knee deep. Despite all the precautions there has been damage to the amount of many thousands of pounds.

The boom of distress from Goodwin Sands was almost continuous. Below London bridge the low lying houses and cellars are flooded and all work is temporarily suspended along the Thames even as high as Charing Cross. The continual rising of the river is looked upon as ominous.

Six vessels were wrecked between Yarmouth and Bacton, only a few miles apart on the Norfolk coast, and 35 lives lost.

EXTENDING ITS LINE.

Findlay, Fort Wayne and Western to Be Connected With the Illinois Central.

FINDLAY, O., Nov. 30.—A meeting was held late yesterday in the directors' room of the Findlay, Fort Wayne and Western railroad for the purpose of ratifying the plans already determined upon for extending that road both east and west and forming one of the most important trunk lines in the country. When this is accomplished the Findlay, Fort Wayne and Western will become a great trunk railroad over whose tracks will pass a large portion of the products of the great west on their way to the seaboard. It is believed that the road will become the eastern outlet for the Illinois Central railroad. A survey has been made of a line from Fort Wayne to Kankakee, Ill., where the road makes its connection with the Illinois Central. John Jacob Astor of New York is president of the road.

Kentucky's Official Count.

FRANKFORT, Ky., Nov. 30.—The official count for Kentucky was made yesterday. The totals for 1896 were: McKinley, 218,171; Bryan, 217,890; Palmer and Buckner, 5,114. The total for this year: Bailey (Rep.), 169,678; Shackelford (Dem.), 187,482; Hindman (N. Dem.), 9,583; Parker (Pop.), 7,374; Wallace (Pro.), 1,788.

Weather.

Indiana and Ohio—Fair; warmer.

NO DANGER OF STARVATION.

Supplies Can Be Brought From Fort Yukon to Dawson City.

TACOMA, Nov. 30.—E. E. Chamberlain of this city has just returned from Lake Linderman, where he went to meet James McKay, who now owns and runs the largest land transportation business in the Yukon basin. He was the first man to make a winter trip from Circle City to Juneau, January 1895-96. His teams now run all winter between Circle City, Dawson and the mouth of Pelly river. His last trip to Juneau was by boat as far as Lake Bennett.

Chamberlain says if there is danger of famine he believes McKay has teams and facilities enough to haul supplies stored at Fort Yukon to Dawson as fast as they will be needed. The most alarming of the reports sent out about the prospective famine say there is food enough on hand for all for four months and that if 2,000 of those now at Dawson go to Fort Yukon, 350 miles away, all will have plenty. These reports are dated about October, McKay would, therefore, have three months in which to get up supplies from the fort before there would be any actual want.

While there are probably two or three boatloads of provisions at Fort Yukon, it is likely that plenty of supplies can be transported from Lake Linderman by the Chilkoot trail tramway, which, it is expected, will be in operation by Jan. 15.

WILL IMMIGRATE TO MEXICO.

Choctaw and Chickasaw Indians Will Locate Among the Grangers.

MUSKOGEE, I. T., Nov. 30.—The Choctaw and Chickasaw Indians who have been in session at Antlers, I. T., for the past week, have determined to organize a colony and immigrate to Mexico. It is understood that the Mexican government will sell them large tracts of land very cheap. United States Indian Agent Wisdom of this place, was selected as the Moses to lead them and they have written to him to know if he would accept. Agent Wisdom says the Indians will sell their lands in this country to the United States, in accordance with their treaties.

DON CARLOS AT WORK.

He Is Said to Be Promoting Fresh Agitation Against Recent Decrees.

MADRID, Nov. 30.—It is stated here that Don Carlos, the pretender, has summoned to Venice, where he is now residing, the Marquis Cerralbe, his representative in Spain, with a view of promoting a fresh agitation on the subject of the autonomy decrees. The Marquis Cerralbe recently tried to negotiate a loan in the Carlist interest, but the attempt was a failure.

Man utter collapse.

The man who has always been a model of business method and dignity—who would as soon think of putting his feet on the piano as home as on the desk at his office—finally goes to pieces all at once. Bankruptcy—without it has come an utter loss of ambition, dignity, and health. If health is at the bottom of it all, Bankruptcy stares in the face every business man who neglects his health. A man cannot work for ever if he is suffering from brain fog, nervous exhaustion, and debility. All these can come to the man who neglects to keep his digestion perfect, his bowels regular and his blood pure.

Business men everywhere have come to recognize Dr. Pierce's Golden Medical Discovery as an invaluable remedy. It makes the digestion perfect, invigorates the liver, restores the appetite, regulates the bowels, purifies and builds up the blood, makes the flesh and muscles firm, and tones up the nerves. It is a business man's medicine.

Thos. J. Torbert, Sr., of Old Springfield, Mar. 20, Ala., writes: "I want to tell you the good this medicine has done for me. I had erysipelas and eczema. I suffered for eight years. I tried all remedies and several doctors, but could get no relief. I bought a bottle of your 'Golden Medical Discovery' and tried it. I used four bottles and a half. It completely cured me. I have had no symptoms of its return. It has been three years since my cure."

Dr. Pierce's Common Sense Medical Adviser has had a larger sale than any other book of this class ever offered the public. This book of 1,008 pages with 300 illustrations, is full, from cover to cover, of practical advice on health matters. This great book, in heavy maroon covers, is now offered FREE to whoever will send a one-cent stamp to pay for mailing only. If an elegant French cloth binding is desired, send 2 cents extra. It cents in all. World's Dispensary Medical Association, Buffalo, N. Y.

RECEIVED FROM
Dr. Miles' New Heart Cure.

ELLI P. BARCOCK, of Avoca, N. Y., a veteran of the 3rd N. Y. Artillery and for thirty years of the Babcock & Muesel Carriage Co., of Auburn, says: "I write to express my gratitude for the miraculous benefit received from Dr. Miles' Heart Cure. I bloated until I was unable to button my clothing; had sharp pains about the heart, smothering spells and shortness of breath. For three months I was unable to lie down, and all the sleep I got was in an arm chair. I was treated by the best doctors but gradually grew worse. About a year ago I commenced taking Dr. Miles' New Heart Cure and it saved my life as if by a miracle."

Telephone No. 42.

Entered at the Seymour, Indiana, Postoffice as Second-class Matter.

TUESDAY, NOVEMBER 30, 1897.

The meeting at Alexandria Monday night to discuss plans and determine the best means of prohibiting the enormous waste of natural gas in Indiana shows conclusively that the gas belt is aroused. And it is well that they are aroused to the point of seeing that the law is enforced against the oil speculators. Natural gas has brought millions of dollars into the state and been the means of building up great industries which give employment to thousands of laborers. These interests must be protected against the greedy oil corporations, who have been working so industriously in several counties.

It seems to be next to impossible for the Columbus people to come to agreement on anything. They are habitually disagreeing and besides seem to delight in letting their neighbors know that they are at war with themselves. Just now they are finding it difficult to come to a common understanding about some preliminary arrangements for the Grand Army encampment to be held their next May. The differences that have arisen in the committees are not very serious or very great now, but may be before next May if not soon adjusted. The people of our neighboring city should not permit any of the troubles and embarrassments to arise that are certain to follow dissensions and strife within the committee having the arrangement in charge. They should keep in mind that the encampment is for the entire state and not a local affair about which they would have a right to wrangle among themselves.

PREHISTORIC VILLAGE.

Remains of One Believed to Have Been Discovered Near Portsmouth.

PORTSMOUTH, O., Nov. 30.—For years freshets in the Ohio river have washed the "Blue Banks" here between Lawson's run and Munn's run and revealed human skeletons. Yesterday an examination of a fresh caving away of the banks disclosed two perfect chimneys with hearthstones on which were wood ashes. It is no doubt the remains of a prehistoric village.

Stalking Human Prey.

The Goorkha, with his catlike facility for taking cover, aided by his small size and his sleuthhound persistence in following an evasive foe, has always been an annoyance to the stalwart Pathan.

On one occasion two Goorkha scouts were told off to drive away two Afghans who, from a neighboring summit, were "sniping" at a passing column. The column reached its camp after midnight, and when roll was called the two Goorkhas were missing.

Their comrades mourned them for a few hours, but at daybreak the two turned up, very tired, very hungry and very thirsty, but radiant.

"We got them both," they said. Few men but Goorkhas would have enjoyed the sport of stalking enemies in their own country until they "got them both."—Pearson's Weekly.

THE AMERICAN MONTHLY REVIEW OF REVIEWS

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the Bookman says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, the economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles" give the best thought and information of the current magazines in five continents; the contributed articles furnish the character sketches of the man of the month, and give timely discussions by authorities on any question of immediate serious import.

"We know of no review published, in this country or in Europe, which combines so successfully as the AMERICAN MONTHLY the alertness, timeliness, and energy of journalism with the sound judgment, carefully weighed opinion, exact knowledge, and well-chosen English of the purely literary periodical."—The Outlook.

give the best thought and information of the current magazines in five continents; the contributed articles furnish the character sketches of the man of the month, and give timely discussions by authorities on any question of immediate serious import.

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged in the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, engineers, the wide-awake women of America. They write that the AMERICAN MONTHLY "is indispensable"; "is simply invaluable"; "is a generous library in itself"; "is a historical cyclopedia of the world"; "the best means of aid for a busy man"; "the best periodical of the kind we have ever had"; "a triumph of editorial genius"; "the world under a field-glass," etc., etc.

The Surprise of All

Mr. James Jones, of the drug firm of Jones & Son, Cowden, Ill., in speaking of Dr. King's New Discovery, says that last winter his wife was attacked with La Grippe, and her case grew so serious that physicians at Cowden and Pana could do nothing for her. It seemed to develop into Hasty Consumption. Having Dr. King's New Discovery in store, and selling lots of it, he took a bottle home, and to the surprise of all she began to get better from first dose and half dozen dollar bottles cured her sound and well. Dr. King's New Discovery for Consumption, Coughs and Colds is guaranteed to do this good work. Try it. Free trial bottles at W. F. Peter's drug store.

FAIRLAND, IND., Oct. 30, 1896. WRIGHT MEDICAL CO., Columbus, Ohio.

Two Pointed Questions Answered.

What is the use of making making a better article than your competitor if you can not get a better price for it?

Ans.—As there is no difference in the price the public will buy only the better, so that while our profits may be smaller on a single sale they will be much greater in the aggregate.

How can you get the public to know your make is the best?

If both articles are brought prominently before the public both are certain to be tried and the public will very quickly pass judgment on them and use only the better one.

This explains the large sale on Chamberlain's Cough Remedy. The people have been using it for years and have found that it can always be depended upon. They may occasionally take up with some fashionable novelty put forth with exaggerated claims, but are certain to return to the one remedy that they know to be reliable and for coughs, colds and croup there is nothing equal to Chamberlain's Cough Remedy. For sale by C. W. Milhous.

ONE OF TWO WAYS.

The bladder is created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble on some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty four hours; sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet sent free by mail. Mention the R. P. B. and send your address to Kilmer & Co., Binghamton, N. Y. John R. McLean's Great Newspaper.

Without a single exception, there is beyond doubt no greater or more popular newspaper in the United States than the Cincinnati Enquirer; or a more successful publisher than its proprietor, Mr. John R. McLean. The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.

The very liberal support given the Enquirer by the public makes incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as in those of greater magnitude.

DE LOME EXPLAINS IT

Interview With the Spanish Minister on Autonomy Decrees.

CANADIAN LAWS COMPARED.

Every Man In Cuba, White or Black, Has a Right to Vote For Legislators Without Conditions Which Attach In the Dominion—The Tariff Clause—Other Washington News.

WASHINGTON, Nov. 30.—Senor Dupuy de Lome, the Spanish minister has received long dispatches from Madrid showing in detail the plan of autonomy which Spain is about to apply to Cuba. Speaking of the new laws, the minister said last evening in part:

"I regret that much misapprehension has arisen over the new law owing to the very meager reports heretofore received concerning it. It is a measure which will stand the closest scrutiny, and I am very desirous that the American people should look into it with care, studying it and comparing it with other constitutional methods of governing colonies. Such study, I am sure, will fully vindicate the law and commend it to the people of this country."

"As a matter of fact the new plan is a complete realization of the policy and platforms of the autonomist party during the last 20 years. The old plan of autonomy gave to Cuba an advisory body. It did not have final authority in making laws, but merely advised as to those laws. Now, however, the new law proposes to give Cuba a parliamentary body of full lawmaking power. This legislative power is as great as that enjoyed by Canada. This is readily demonstrated by comparing the plan of the law with that of the British North American act of 1867 which establishes the present parliamentary system of Canada. According to the Canadian law, parliament consists of two bodies. The upper house is appointed by the crown, each member holding a life tenure, with a qualification that no member is eligible unless he has an income of \$4,000."

"Instead of the crown appointing all of the upper house of Cuba, as in Canada, the Spanish crown is to appoint only one half the members. The other half are to be elected by the people of Cuba every five years. There is a \$4,000 property qualification for membership of the upper house. There is a \$2,500 property qualification for members of the lower house in Canada and also a qualification as to those who may vote for such members. But in the new plan for Cuba there is no property qualification as to the electors. It is one man, one vote, the same be he black or white."

"The insular parliament will form its own tariff, fixing both import and export duties. The home government, together with the insular government, will make a schedule of such peninsular and insular products as by common agreement shall enjoy a preferential duty over similar foreign products, which in no case shall exceed 35 per cent. In case of disagreement in the preparation of said schedule the point in dispute shall be submitted to a committee of members of the cortes, consisting of an equal number of peninsulars and Cubans."

"It will be observed that this gives to the Cuban parliament entire control of the tariff, with the condition that there shall be preferential duties for Spain, not exceeding 35 per cent."

Frankfort Lottery Case.

WASHINGTON, Nov. 30.—Justice Harlan handed down the opinion of the United States supreme court yesterday in the case of J. J. Douglas, plaintiff in error against the commonwealth of Kentucky, holding the franchise of the Frankfort lottery to be invalid. The case was brought to this court by Douglas on allegations of error in the decision of the Kentucky court of appeals, which was adverse to him.

November Revenues.

WASHINGTON, Nov. 30.—The government receipts for November so far have reached \$22,000,000, which indicates a total of about \$25,000,000 for the month. This is a trifling improvement over October, when the receipts were \$24,891,415.

AGAINST TIME.

Union Pacific Mail Train Makes 519 Miles In 559 Minutes.

OMAHA, Nov. 30.—The Union Pacific has made another record for fast running. A mail train has been shot across the country from Cheyenne to Council Bluffs, 519 miles, in 559 minutes. This is actual elapsed time and includes all stops. Engines were changed twice and one engineer was relieved. All the regular stops were made and one extra when an air brake hose burst and had to be repaired at the expense of several minutes of time. A burned out bridge near Medicine Row, Wyo. delayed the mail five hours and 30 minutes. The train reached Cheyenne five hours late. It was necessary to reach Council Bluffs on time or pay a heavy fine to the government. It was a most remarkable run against time.

Treasurer McLaren's Deficit.

CLEVELAND, Nov. 30.—Attorney Hadden, representing the order of the Scottish claus, has recovered to date \$8,000 of the \$15,000, which the books of Treasurer McLaren fail to account for. Mr. McLaren is not mentally clear as yet and is in a private sanitarium. The \$8,000 was found in a bank in Mr. McLaren's name, and his friends believe the remainder is similarly placed.

grass region. Mr. Whitney owns a number of blooded horses quartered on Dr. E. M. Norwood's farm.

Mr. Whitney, when asked for an interview on matters political, said: "I have positively nothing to say concerning the political affairs of this nation. I have retired from active politics, and have since my return from Europe made it a rule to abstain from the discussion of politics. I am in Kentucky for a pleasure trip."

RECEIVED BY THE POPE.

Archbishop Keane Congratulated by Leo For Self Abnegation.

ROME, Nov. 30.—Archbishop Keane, former rector of the Catholic University at Washington, was received by the pope yesterday. His holiness congratulated the bishop upon the abnegation with which, in a letter to the pope, he renounced his claim to be included in the list of candidates for appointment to the archbishopric of New Orleans. The pope also congratulated Archbishop Keane upon the series of sermons in English which he has commenced at the church of St. Silvestro in Capite, erected in honor of John the Baptist, a piece of whose head is still preserved there. The church is now in the possession of the English Roman Catholics.

THORN TRIAL.

Case In the Hands of the Jury—Opinion as to the Result.

NEW YORK, Nov. 30.—The trial of Martin Thorn for the murder of Golden-Suppe was closed last night so far as the taking of evidence was concerned. This morning the lawyers for the defendant and the people began their arguments and Justice Madox charged the jury late this afternoon. Opinions both lay and legal differ very materially as to the probable result. Many look for conviction, but a greater number anticipate a disagreement. Thorn charged Mrs. Nack with the murder.

OCEAN RECORD BROKEN.

SOUTHAMPTON, Nov. 30.—The North German Lloyd steamer Kaiser Wilhelm Der Grosse, which left New York on Nov. 23, arrived here yesterday afternoon. The total distance covered was 3,065 knots, and the passage lasted 137 hours 8 minutes, or 5 days, 17 hours 5 minutes.

He was accompanied by his wife who is 78 years old, and his daughter, who is also up in years. The centenarian was assured that he would be taken care of by the authorities.

ON ENGLISH COAST

Terrible Storm Which Caused Great Loss of Life.

MANY VESSELS GO TO PIECES.

Seven Thousand Troops Ordered Out to Save Government Property—Famous Watering Places Almost Wholly Destroyed—Houses Unroofed in Liverpool. Nelson's Old Flagship.

LONDON, Nov. 30.—The latest reports from various points along the coast show that the gale which swept English waters Sunday and which did not abate its fury until last evening was one of the worst storms of recent years.

In many places it was almost cyclonic in its violence, and the long list of disasters includes a large loss of life, many wrecks of large vessels and the loss of scores, if not hundreds, of smaller craft, with serious damage to property ashore at many important towns. In the north the wind was accompanied by blinding snow and hail that hid the lights and immensely increased the difficulties of navigation. Many ships are known to have foundered, in most cases, it is feared, with all on board.

Scarcely a town on the coast has escaped without more or less injury, falling walls and flying debris adding to the loss of life.

There have been rocket and lifeboat rescues without number. Stories of thrilling escapes come from all points. On the Norfolk coast, between Bacton and Happisburgh five vessels as yet unidentified, went down and the crews of all perished.

Dead Bodies Washed Ashore.

A number of bodies have been washed ashore near Yarmouth. The brig Rugby was wrecked off Hemsby. The coast guard service made desperate efforts to save the crew and succeeded in getting a line on board. A dying woman was "rocketed" in safety and then the brig capsized, all the rest of the ship's company perishing.

A large steam collier dashed upon Flamborough head, floated off and then foundered with all on board.

A steamer not yet identified was wrecked on Brillington sands with her entire company.

The ship Rose of Devon, Captain Davis, went on the rocks near Redruth, Cornwall and her crew of 13 perished. Yesterday the bodies of the captain and five seamen, all wearing life belts, were washed ashore.

The Sheerness dockyard and Woolwich arsenal were inundated. At Scarborough, the fashionable water place, the sea wall washed away. At Yarmouth, Lowestoft and other coast towns of Norfolk the esplanades were flooded.

At Liverpool the squalls blew off the roofs of several houses, threw down chimneys and tore up trees. The Mersey flooded its banks on the Chester side and deluged the shore district for miles.

Similar disasters occurred at Holyhead, where a number of valuable yachts were sunk at their moorings. Scarcely a vestige remains in sight of the wreck of Lord Nelson's old flagship, the Foudroyant.

Scenes of Great Grief.

The scenes at such popular resorts as Yarmouth and Margate were of great grandeur, but the damage was enormous. Immense damage has been done to the government property at the Sheerness dockyard and the Woolwich arsenal. Seven thousand troops were hurriedly ordered out to remove thousands of pounds worth of ammunition and stores from the wharves and sheds to places of safety.

The tide continued to rise and invaded almost all the workshops, quenched the engine fires and stopped the electric lights. The workmen were obliged to go home, wading knee deep. Despite all the precautions there has been damage to the amount of many thousands of pounds.

The boom of distress from Goodwin Sands was almost continuous. Below London bridge the low lying houses and cellars are flooded and all work is temporarily suspended along the Thames even as high as Charing Cross. The continual rising of the river is looked upon as ominous.

Six vessels were wrecked between Yarmouth and Bacton, only a few miles apart on the Norfolk coast, and 25 lives lost.

EXTENDING ITS LINE.

Findlay, Fort Wayne and Western to Be Connected With the Illinois Central.

FINDLAY, O., Nov. 30.—A meeting was held late yesterday in the directors' room of the Findlay, Fort Wayne and Western railroad for the purpose of ratifying the plans already determined upon for extending that road both east and west and forming one of the most important trunk lines in the country.

When this is accomplished the Findlay, Fort Wayne and Western will become a great trunk railroad over whose tracks will pass a large portion of the products of the great west on their way to the seaboard. It is believed that the road will become the eastern outlet for the Illinois Central railroad.

A survey has been made of a line from Fort Wayne to Kankakee, Ill., where the road makes its connection with the Illinois Central. John Jacob Astor of New York is president of the road.

Kentucky's Official Count.

FRANKFORT, Ky., Nov. 30.—The official count for Kentucky was made yesterday. The totals for 1896 were: McKinley, 218,171; Bryan, 217,890; Palmer and Buckner, 5,114. The total for this year: Bailey (Rep.), 169,678; Shackelford (Dem.), 187,482; Hindman (N. Dem.), 9,583; Parker (Pop.), 7,374; Wallace (Pro.), 1,788.

Weather.

Indiana and Ohio—Fair; warmer.

NO DANGER OF STARVATION.

Supplies Can Be Brought From Fort Yukon to Dawson City.

TACOMA, Nov. 30.—E. E. Chamberlain of this city has just returned from Lake Linderman, where he went to meet James McKay, who now owns and runs the largest land transportation business in the Yukon basin. He was the first man to make a winter trip from Circle City to Juneau, January 1895-96. His teams now run all winter between Circle City, Dawson and the mouth of Pelly river. His last trip to Juneau was by boat as far as Lake Bennett.

Chamberlain says if there is danger of famine he believes McKay has teams and facilities enough to haul supplies stored at Fort Yukon to Dawson as fast as they will be needed. The most alarming of the reports sent out about the prospective famine say there is food enough on hand for all for four months and that if 2,000 of those now at Dawson go to Fort Yukon, 350 miles away, all will have plenty. These reports are dated about October, McKay would, therefore, have three months in which to get up supplies from the fort before there would be any actual want.

While there are probably two or three boatloads of provisions at Fort Yukon, it is likely that plenty of supplies will be transported from Lake Linderman by the Chilkoot trail tramway, which, it is expected, will be in operation by Jan. 15.

WILL IMMIGRATE TO MEXICO.

Choctaw and Chickasaw Indians Will Locate Among the Greasers.

MUSKOGEE, I. T., Nov. 30.—The Choctaw and Chickasaw Indians who have been in session at Antlers, I. T., for the past week, have determined to organize a colony and immigrate to Mexico. It is understood that the Mexican government will sell them large tracts of land very cheap. United States Indian Agent Wisdom of this place, was selected as the Moses to lead them and they have written to him to know if he would accept. Agent Wisdom says the Indians will sell their lands in this country to the United States, in accordance with their treaties.

DON CARLOS AT WORK.

He Is Said to Be Promoting Fresh Agitation Against Recent Decrees.

MADRID, Nov. 30.—It is stated here that Don Carlos, the pretender, has summoned to Venice, where he is now residing, the Marquis Cerralbe, his representative in Spain, with a view of promoting a fresh agitation on the subject of the autonomy decrees. The Marquis Cerralbe recently tried to negotiate a loan in the Carlist interest, but the attempt was a failure.

STAVING 301770

An utter collapse.

The man who has always been a model of business method and dignity—who would at once think of putting his feet on the piano at home as on the desk at his office—finally goes to pieces all at once. Bankruptcy—with it has come an utter loss of ambition, dignity, and health. Ill-health is at the bottom of it all. Bankruptcy stares in the face every business man who neglects his health. A man cannot work on forever if he is suffering from brain fog, nervous exhaustion, and debility. All these can come to the man who neglects to keep his digestion perfect, his bowels regular and his blood pure.

Business men everywhere have come to recognize Dr. Pierce's Golden Medical Discovery as an invaluable remedy. It makes the digestion perfect, invigorates the liver, restores the appetite, regulates the bowels, purifies and builds up the blood, makes the flesh and muscles firm, and tones up the nerves. It is a business man's medicine.

Thos. J. Torbert, Sr., of Old Springfield, Marquette Co., Ala., writes: "I want to tell you the good the 'Golden Medical Discovery' has done me. I had erysipelas and eczema. Had suffered for eight years. I tried all remedies and several doctors, but could get no relief. I bought a bottle of your 'Golden Medical Discovery' and tried it. I used four bottles and a half. It completely cured me. I have no symptoms of its return. It has been three years since my cure."

Dr. Pierce's Common Sense Medical Adviser has had a larger sale than any other book of this class ever offered the public. This book of 1,000 pages with 300 illustrations, is full, from cover to cover, of practical advice on health matters. This great book, in heavy manila covers, is now offered FREE to whoever will send at once—cent stamps to pay for mailing only. If an elegant French cloth binding is desired, send to cents extra; at cents in all. World's Dispensary Medical Association, Buffalo, N. Y.

Kidnapers Attempt to Carry Off an Evansville Boy—Railroads Combine to Break Up a Gang of Car Thieves—Barred From the State—All Happened on His Birthday.

ENGLISH, Ind., Nov. 30.—Assignee Arnold has gone through the books of the defunct banks and finds everything in excellent condition—sufficient to pay the claims in full and leave a surplus of \$25,000. The nonappearance of cashier Willets, in view of this fact, is a surprise to everybody. Fears are expressed for his mental condition, as it is known that he has been subjected to a great strain.

WORKS NIGHT AND DAY.

George W. Woodruff Has Not Slept For Three Months.

FLORA, Ind., Nov. 30.—George W. Woodruff, near here, is afflicted with a disease that has baffled the skill of physicians. Woodruff does not suffer any pain, but he has been unable to sleep for nearly three months. About three years ago the disease first made its appearance and Woodruff went without sleep for a night or two at a time. Since that time the "spells" are of longer duration. Opium has no effect upon him. He works night and day as long as his sleeplessness continues, and says he feels as well as he did when he slept eight hours every night.

MONTGOMERY'S BODY FOUND.

Was Lost Off the Boat Lizzie Bay Last August.

VEVAY, Ind., Nov. 30.—The body of a man was found floating in the river at Vevay Island by John Sturgeon. From drafts and letters found on the corpse, friends identified it as that of William Montgomery, a wealthy farmer of Ghent, Ky. Mr. Montgomery was a passenger on the Lizzie Bay on Aug. 7 last and was missed at Warsaw, Ky. A reward of \$500 had been offered for the recovery of the body.

Two Men Fall In Their Efforts to Carry Off a Boy.

EVANSVILLE, Ind., Nov. 30.—Two men went to the home of Philip Speck, and met his 11 year old son in the yard, tied his hands behind him and placed a rope around his neck. It is believed they intended to hold the boy for a ransom, as his grandfather is very wealthy.

Miraculous Benefit Dr. Miles' New Heart Cure.

ELLI P. BARCOCK, of Avoca, N. Y., a veteran of the 3rd N. Y. Artillery and for thirty years of the Babcock & Musiel Carriage Co., of Auburn, says: "I write to express my gratitude for the miraculous benefit received from Dr. Miles' Heart Cure. I suffered for years, as result of army life, from catarrh which affected my heart in the worst form, my limbs swelled from the ankles up. I bloated until I was unable to button my clothing; had sharp pains about the heart, smothering spells and shortness of breath. For three months I was unable to lie down, and all the sleep I got was in an arm chair. I was treated by the best doctors but gradually grew worse. About a year ago I commenced taking Dr. Miles' New Heart Cure and it saved my life as if by a miracle."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and arteries free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.

Telephone No. 42.

Entered at the Seymour, Indiana, Postoffice as Second-class Matter.

TUESDAY, NOVEMBER 30, 1897.

THE meeting at Alexandria Monday night to discuss plans and determine the best means of prohibiting the enormous waste of natural gas in Indiana shows conclusively that the gas belt is aroused. And it is well that they are aroused to the point of seeing that the law is enforced against the oil speculators. Natural gas has brought millions of dollars into the state and been the means of building up great industries which give employment to thousands of laborers. These interests must be protected against the greedy oil corporations, who have been working so industriously in several counties.

It seems to be next to impossible for the Columbus people to come to agreement on anything. They are habitually disagreeing and besides seem to delight in letting their neighbors know that they are at war with themselves. Just now they are finding it difficult to come to a common understanding about some preliminary arrangements for the Grand Army encampment to be held their next May. The differences that have arisen in the committees are not very serious or very great now, but may be before next May if not soon adjusted. The people of our neighboring city should not permit any of the troubles and embarrassments to arise that are certain to follow dissensions and trife within the committee having the arrangement in charge. They should keep in mind that the encampment is for the entire state and not a local affair about which they would have a right to wrangle among themselves.

READ THE LUETGERT TRIAL

John Dame's Frenzy to Kill and Burn His Wife.

DENVER, Nov. 30.—John H. Dame was locked up yesterday in the city jail on a charge of insanity. He read the testimony in the Luetgert murder trial at Chicago and became possessed of a frenzy to kill his wife and two children and to burn their bodies in the old garbage crematory. He is undoubtedly violently insane.

FRANKFORT, Ky., Nov. 30.—Governor Bradley has declared his intention to designate his daughter, Miss Christine Bradley, to christen the battleship Kentucky. He says he does not see how he could well do otherwise, since he has been so generally requested to do so, but that it had not occurred to him to do so until these requests came in.

Fees Belonged to the State.

LINCOLN, Neb., Nov. 30.—Judge Cornish has passed on the point raised by ex-Auditor of State Eugene Moore that fees embezzled did not belong to the state, and consequently his conviction on that charge was illegal. He held the point not well taken. Sentence was suspended pending an appeal to the supreme court.

Stalking Human Prey.

The Gorkha, with his catlike facility for taking cover, aided by his small size and his sleuthhound persistence in following an evasive foe, has always been an annoyance to the stalwart Pathan.

On one occasion two Gorkha scouts were told off to drive away two Afghans who, from a neighboring summit, were "sniping" at a passing column. The column reached its camp after midnight, and when roll was called the two Gorkhas were missing.

Their comrades mourned them for a few hours, but at daybreak the two turned up, very tired, very hungry and very thirsty, but radiant.

"We got them both," they said. Few men but Gorkhas would have enjoyed the sport of stalking enemies in their own country until they "got them both."—Pearson's Weekly.

THE AMERICAN MONTHLY REVIEW OF REVIEWS

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the Bookman says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, the economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles" give the best thought and information of the current magazines in five continents; the contributed articles furnish the character sketches of the man of the month, and give timely discussions by authorities on any question of immediate serious import.

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged in the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, engineers, the wide-awake women of America. They write that the AMERICAN MONTHLY "is indispensable"; "is simply invaluable"; "is a generous library in itself"; "is a historical encyclopedia of the world"; "the best means of aid for a busy man"; "the best periodical of the kind we have ever had"; "a triumph of editorial genius"; "the world under a field-glass," etc., etc.

The Surprise of All

Mr. James Jones, of the drug firm of Jones & Son, Cowden, Ill., in speaking of Dr. King's New Discovery, says that last winter his wife was attacked with La Grippe, and her case grew so serious that physicians at Cowden and Pana could do nothing for her. It seemed to develop into Hasty Consumption. Having Dr. King's New Discovery in store, and selling lots of it, he took a bottle home, and to the surprise of all she began to get better from first dose and half dozen dollar bottles cured her sound and well. Dr. King's New Discovery for Consumption, Coughs and Colds is guaranteed to do this good work. Try it. Free trial bottles at W. F. Peter's drug store.

Grant Winslow who works for F. H. Gates is confined to his bed with malaria trouble.

Two Pointed Questions Answered.

What is the use of making making a better article than your competitor if you can not get a better price for it?

Ans.—As there is no difference in the price the public will buy only the better, so that while our profits may be smaller on a single sale they will be much greater in the aggregate.

How can you get the public to know your make is the best?

If both articles are brought prominently before the public both are certain to be tried and the public will very quickly pass judgment on them and use only the better one.

This explains the large sale on Chamberlain's Cough Remedy. The people have been using it for years and have found that it can always be depended upon. They may occasionally take up with some fashionable novelty put forth with exaggerated claims, but are certain to return to the one remedy that they know to be reliable, and for coughs, colds and croup there is nothing equal to Chamberlain's Cough Remedy. For sale by C. W. Milhous.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

Unhealthy urine from unhealthy kidney is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty four hours; sediment or settling indicates kidney or bladder trouble. The mild and extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, sent free by mail. Mention The REPUBLICAN and send your address to Kilmer & Co., Binghamton, N. Y. P. r. i. c. i. p. s. of this paper guarantee eminence of this offer.

John R. McLean's Great Newspaper.

Without a single exception, there is no doubt no greater or more popular newspaper in the United States than the Cincinnati Enquirer; or a more successful publisher than its proprietor, Mr. John R. McLean. The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: "The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford."

The very liberal support given the Enquirer by the public makes it incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as in those of greater magnitude.

DE LOME EXPLAINS IT

Interview With the Spanish Minister on Autonomy Decrees.

CANADIAN LAWS COMPARED.

Every Man In Cuba, White or Black, Has a Right to Vote For Legislators Without Conditions Which Attach in the Dominion—The Tariff Clause—Other Washington News.

WASHINGTON, Nov. 30.—Senator Dupuy de Lome, the Spanish minister has received long dispatches from Madrid showing in detail the plan of autonomy which Spain is about to apply to Cuba. Speaking of the new laws, the minister said last evening in part:

"I regret that much misapprehension has arisen over the new law owing to the very meager reports heretofore received concerning it. It is a measure which will stand the closest scrutiny, and I am very desirous that the American people should look into it with care, studying it and comparing it with other constitutional methods of governing colonies. Such study, I am sure, will fully vindicate the law and commend it to the people of this country.

"As a matter of fact the new plan is a complete realization of the policy and platforms of the autonomist party during the last 20 years. The old plan of autonomy gave to Cuba an advisory body. It did not have final authority in making laws, but merely advised as to those laws. Now, however, the new law proposes to give Cuba a parliamentary body of full lawmaking power. This legislative power is as great as that enjoyed by Canada. This is readily demonstrated by comparing the plan of the law with that of the British North American act of 1867 which establishes the present parliamentary system of Canada. According to the Canadian law, parliament consists of two bodies. The upper house is appointed by the crown, each member holding a life tenure, with a qualification that no member is eligible unless he has an income of \$4,000.

"Instead of the crown appointing all of the upper house of Cuba, as in Canada, the Spanish crown is to appoint only one half the members. The other half are to be elected by the people of Cuba every five years. There is a \$4,000 property qualification for membership of the upper house. There is a \$2,500 property qualification for members of the lower house in Canada and also a qualification as to those who may vote for such members. But in the new plan for Cuba there is no property qualification as to the electors. It is one man, one vote, the same be he black or white.

"The insular parliament will form its own tariff, fixing both import and export duties. The home government, together with the insular government, will make a schedule of such peninsular and insular products as by common agreement shall enjoy a preferential duty over similar foreign products, which in no case shall exceed 35 per cent. In case of disagreement in the preparation of said schedule the point in dispute shall be submitted to a committee of members of the cortes, consisting of an equal number of peninsulars and Cubans.

"It will be observed that this gives to the Cuban parliament entire control of the tariff, with the condition that there shall be preferential duties for Spain, not exceeding 35 per cent."

Frankfort Lottery Case.

WASHINGTON, Nov. 30.—Justice Harlan handed down the opinion of the United States supreme court yesterday in the case of J. J. Douglas, plaintiff in error against the commonwealth of Kentucky, holding the franchise of the Frankfort lottery to be invalid. The case was brought to this court by Douglas on allegations of error in the decision of the Kentucky court of appeals, which was adverse to him.

November Revenues.

WASHINGTON, Nov. 30.—The government receipts for November so far have reached \$22,990,990, which indicates a total of about \$25,000,000 for the month. This is a trifling improvement over October, when the receipts were \$24,891,415.

AGAINST TIME.

Union Pacific Mail Train Makes 519 Miles In 559 Minutes.

OMAHA, Nov. 30.—The Union Pacific has made another record for fast running. A mail train has been shot across the country from Cheyenne to Council Bluffs, 519 miles, in 559 minutes. This is actual elapsed time and includes all stops. Engines were changed twice and one engine was reloaded. All the regular stops were made and one extra when an air brake hose burst and had to be repaired at the expense of several minutes of time. A burned out bridge near Medicine Row, Wyo. delayed the mail five hours and 40 minutes. The train reached Cheyenne five hours late. It was necessary to reach Council Bluffs on time or pay a heavy fine to the government. It was a most remarkable run against time.

Treasurer McLaren's Deficit.

CLEVELAND, Nov. 30.—Attorney Haden, representing the order of the Scottish claus, has recovered to date \$8,000 of the \$15,000, which the books of Treasurer McLaren fail to account for. Mr. McLaren is not mentally clear as yet and is in a private sanitarium. The \$8,000 was found in a bank in Mr. McLaren's name, and his friends believe the remainder is similarly placed.

grass region. Mr. Whitney owns a number of blooded horses quartered on Dr. E. M. Norwood's farm.

Mr. Whitney, when asked for an interview on matters political, said: "I have positively nothing to say concerning the political affairs of this nation. I have retired from active politics, and have since my return from Europe made it a rule to abstain from the discussion of politics. I am in Kentucky for a pleasure trip."

RECEIVED BY THE POPE.

Archbishop Keane Congratulated by Leo For Self Abnegation.

ROME, Nov. 30.—Archbishop Keane, former rector of the Catholic University at Washington, was received by the pope yesterday. His holiness congratulated the bishop upon the abnegation with which, in a letter to the pope, he renounced his claim to be included in the list of candidates for appointment to the archbishopric of New Orleans. The pope also congratulated Archbishop Keane upon the series of sermons in English which he has commenced at the church of St. Silvestro in Capite, erected in honor of John the Baptist, a piece of whose head is still preserved there. The church is now in the possession of the English Roman Catholics.

THORN TRIAL.

Case In the Hands of the Jury—Opinion as to the Result.

NEW YORK, Nov. 30.—The trial of Martin Thorn for the murder of Golden Sunday was closed last night so far as the taking of evidence was concerned. This morning the lawyers for the defendant and the people began their arguments and Justice Madox charged the jury late this afternoon. Opinions both lay and legal differ very materially as to the probable result. Many look for conviction, but a greater number anticipate a disagreement. Thorn charged Mrs. Nack with the murder.

OCEAN RECORD BROKEN.

Kaiser Wilhelm Der Grosse's Trip From New York to Southampton.

SOUTHAMPTON, Nov. 30.—The North German Lloyd steamer Kaiser Wilhelm Der Grosse, which left New York on Nov. 23, arrived here yesterday afternoon. The steamer was delayed 25 minutes in standing by a burning ship, but in spite of this she broke the record for the highest average speed across the ocean, her speed per hour averaging 22.35 knots. The total distance covered was 3,065 knots, and the passage lasted 137 hours 8 minutes, or 5 days, 17 hours 8 minutes.

TOO OLD TO WORK.

Richard Reddick Who Claims to Be 120 Years Old Asks Charity.

PITTSBURGH, Nov. 30.—Richard Reddick, colored, who claims to have been born July 5, 1777, near Richmond, Va., applied at the Department of Charities for admission to the home, stating that he is now too old to work and cannot support himself. He was accompanied by his wife who is 78 years old, and his daughter, who is also up in years. The centenarian was assured that he would be taken care of by the authorities.

ON ENGLISH COAST

NO DANGER OF STARVATION.

Supplies Can Be Brought From Fort Yukon to Dawson City.

TACOMA, Nov. 30.—E. E. Chamberlain of this city has just returned from Lake Linderman, where he went to meet James McKay, who now owns and runs the largest land transportation business in the Yukon basin. He was the first man to make a winter trip from Circle City to Juneau, January 1895-96. His teams now run all winter between Circle City, Dawson and the mouth of Pelly river. His last trip to Juneau was by boat as far as Lake Bennett.

Terrible Storm Which Caused Great Loss of Life.

Seven Thousand Troops Ordered Out to Save Government Property—Famous Watering Places Almost Wholly Destroyed—Houses Unroofed in Liverpool. Nelson's Old Flagship.

LONDON, Nov. 30.—The latest reports from various points along the coast show that the gale which swept English waters Sunday and which did not abate its fury until last evening was one of the worst storms of recent years.

In many places it was almost cyclonic in its violence, and the long list of disasters includes a large loss of life, many wrecks of large vessels and the loss of scores, if not hundreds, of smaller craft, with serious damage to property ashore at many important towns. In the north the wind was accompanied by blinding snow and hail that hid the lights and immensely increased the difficulties of navigation. Many ships are known to have foundered, in most cases, it is feared, with all on board.

Scarcely a town on the coast has escaped without more or less injury, falling walls and flying debris adding to the loss of life.

There have been rocket and lifeboat rescues without number. Stories of thrilling escapes come from all points. On the Norfolk coast, between Bacton and Happisburg five vessels as yet unidentified, went down and the crews of all perished.

Dead Bodies Washed Ashore.
A number of bodies have been washed ashore near Yarmouth. The brig Rugby was wrecked off Hemsby. The coast guard service made desperate efforts to save the crew and succeeded in getting a line on board. A dying woman was "rocketed" in safety and then the brig capsized, all the rest of the ship's company perishing.

A large steam collier dashed upon Flamborough head, floated off and then foundered with all on board.

A steamer not yet identified was wrecked on Brillington sands with her entire company.

The ship Rose of Devon, Captain Davis, went on the rocks near Redruth, Cornwall and her crew of 12 perished. Yesterday the bodies of the captain and five seamen, all wearing life belts, were washed ashore.

The Sheerness dockyard and Woolwich arsenal were inundated. At Scarborough, the fashionable water place, the sea wall washed away. At Yarmouth, Lowestoft and other coast towns of Norfolk the esplanades were flooded.

At Liverpool the squalls blew off the roofs of several houses, threw down chimneys and tore up trees. The Mersey flooded its banks on the Chester side and deluged the shore district for miles.

Similar disasters occurred at Holyhead, where a number of valuable yachts were sunk at their moorings. Scarcely a vestige remains in sight of the wreck of Lord Nelson's old flagship, the Foudroyant.

Scene of Great Granter.

The scenes at such popular resorts as Yarmouth and Margate were of great grandeur, but the damage was enormous. Immense damage has been done to the government property at the Sheerness dockyard and the Woolwich arsenal. Seven thousand troops were hurriedly ordered out to remove thousands of pounds worth of ammunition and stores from the wharves and sheds to places of safety.

The tide continued to rise and invaded almost all the workshops, quenched the engine fires and stopped the electric lights. The workmen were obliged to go home, wading knee deep. Despite all the precautions there has been damage to the amount of many thousands of pounds.

The boom of distress from Goodwin Sands was almost continuous. Below London bridge the low lying houses and cellars are flooded and all work is temporarily suspended along the Thames even as high as Charing Cross. The continual rising of the river is looked upon as ominous.

Six vessels were wrecked between Yarmouth and Bacton, only a few miles apart on the Norfolk coast, and 25 lives lost.

EXTENDING ITS LINE.

Findlay, Fort Wayne and Western to Be Connected With the Illinois Central.

INDIANAPOLIS, O., Nov. 30.—A meeting was held yesterday in the directors' hall of the Findlay, Fort Wayne and Western railroad for the purpose of ratifying the plans already determined upon for extending that road both east and west and forming one of the most important trunk lines in the country.

When this is accomplished the Findlay, Fort Wayne and Western will become a great trunk railroad over whose tracks will pass a large portion of the products of the great west on their way to the seaboard. It is believed that the road will become the eastern outlet for the Illinois Central railroad. A survey has been made of a line from Fort Wayne to Kankakee, Ill., where the road makes its connection with the Illinois Central. John Jacob Astor of New York is president of the road.

Kentucky's Official Count.

FRANKFORT, Ky., Nov. 30.—The official count for Kentucky was made yesterday. The totals for 1896 were: McKinley, 218,171; Bryan, 217,890; Palmer and Buckner, 5,114. The total for this year: Bailey (Rep.), 169,678; Shackelford (Dem.), 187,482; Hindman (N. Dem.), 9,583; Parker (Pop.), 7,374; Wallace (Pro.), 1,788.

THE AMERICAN MONTHLY REVIEW OF REVIEWS

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the Bookman says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, the economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles" give the best thought and information of the current magazines in five continents; the contributed articles furnish the character sketches of the man of the month, and give timely discussions by authorities on any question of immediate serious import.

"We know of no review published, in this country or in Europe, which combines so successfully as the AMERICAN MONTHLY the alertness, timeliness, and energy of journalism with the sound judgment, carefully weighed opinion, exact knowledge, and well-chosen English of the purely literary periodical."—The Outlook.

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged in the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, engineers, the wide-awake women of America. They write that the AMERICAN MONTHLY "is indispensable"; "is simply invaluable"; "is a generous library in itself"; "is a historical cyclopedia of the world"; "the best means of aid for a busy man"; "the best periodical of the kind we have ever had"; "a triumph of editorial genius"; "the world under a field-glass," etc., etc.

The Surprise of All

Mr. James Jones, of the drug firm of Jones & Son, Cowden, Ill., in speaking of Dr. King's New Discovery, says that last winter his wife was attacked with La Grippe, and her case grew so serious that physicians at Cowden and Pana could do nothing for her. It seemed to develop into Hasty Consumption. Having Dr. King's New Discovery in store, and selling lots of it, he took a bottle home, and to the surprise of all she began to get better from first dose and half dozen dollar bottles cured her sound and well. Dr. King's New Discovery for Consumption, Coughs and Colds is guaranteed to do this good work. Try it. Free trial bottles at W. F. Peter's drug store.

Two Pointed Questions Answered.

What is the use of making making a better article than your competitor if you can not get a better price for it?

Ans.—As there is no difference in the price the public will buy only the better, so that while our profits may be smaller on a single sale they will be much greater in the aggregate.

How can you get the public to know your make is the best?

If both articles are brought prominently before the public both are certain to be tried and the public will very quickly pass judgment on them and use only the better one.

This explains the large sale on Chamberlain's Cough Remedy. The people have been using it for years and have found that it can always be depended upon. They may occasionally take up with some fashionable novelty put forth with exaggerated claims, but are certain to return to the one remedy that they know to be reliable and for coughs, colds and croup there is nothing equal to Chamberlain's Cough Remedy. For sale by C. W. Milhous.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble or some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; a sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, sent free by mail. Mention the R. P. Bieckman and send your address to Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee correctness of this offer.

Governor Mount has announced that he would not call a special session of the legislature to consider measures for the relief of the gas belt cities from the deliberate and criminal waste of this precious fuel.
